Matric

Diploma in Web Design

Multiple Certificates

SKILLS

Good Communication

PROFILE

I am a self taught UI / front end specialist. I specialize in rapid UI development across all screen resolutions and devices. My interests are in tracking UI interactions and monitoring the effects of varying UI element placements. Recently ventured into sever-side development.

I have experience in various languages of web development acquired over the past four years. Wrote my first code when I was 16 and continuously learned new languages. I am a hard worker who is passionate about web development and a fast learner.

To keep my Skills relevant I attend meetups and study online courses at Plural sight, Udemy, Alisona and Coursetro.

EXPERIENCE

Osiris Trading

TFS

NEO TECH PTY Ltd

Fullstack Developer - Jan 2017 - to date

After developing websites for family and friends for a while, I decided to register a company that will provide developemnt and design services for the few clients that I had accumulated in my spare time. That is how

NEO TECH PTY LTD   was founded.

I get to be an all-rounder on all work that has to be done at NEO TECH, This helps me to acquire experience and knowledge in different skills.

Responsibilities:

- Currently working on the rebuild of BIDVEST BANK website using Angular8.
- Currently working on a HR system to manage employees, provide payslips etc using Angular8 and NodeJS.
- Built a Vendor application system for Clinix Health Group using Angular2 and NodeJI.
- Built a Farm management system frontend using Angular2 and Rest API.
- Working with Rest API's.
- Project management for the small team I work with.
- Managing delivery, deligating work among the team.
- Developing angular web applications.
- Developing new and maintaining existing WordPress sites.
- Developing Progressive Web Applications.
- Designing Fliers, Banners, Pullup Banners, Billboard Banners (etc).
- Ensuring high performance and availability of applications across all devices.
- Setting up source control (git repositories).
- Setting up CI/CD to automate deployment.
